

Day 3 – Internship Report

Learn HTML and CSS Course Through Scrimba Platform

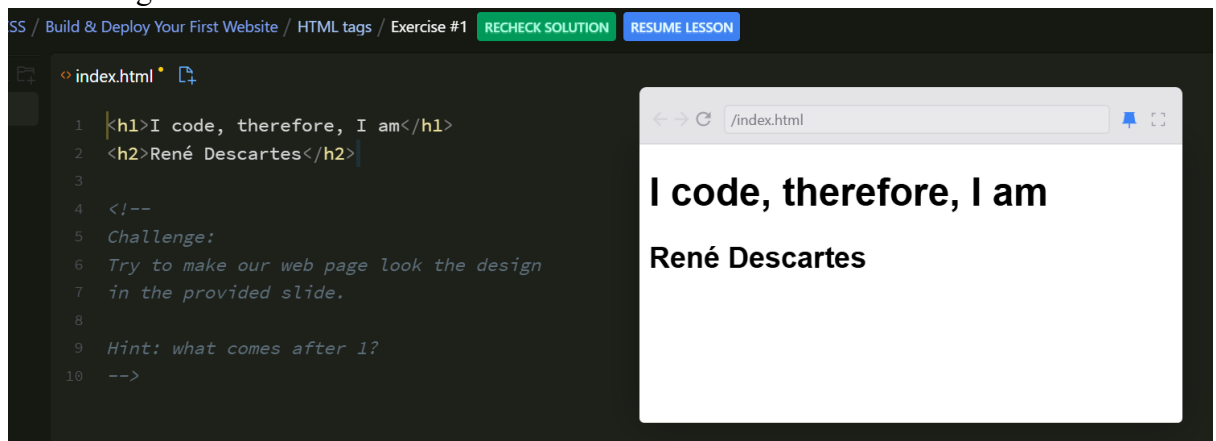

Date: 26th June 2025

Internship Role: Front-End Developer Intern

Company: ProSensia

Today's Experience

- HTML Tags

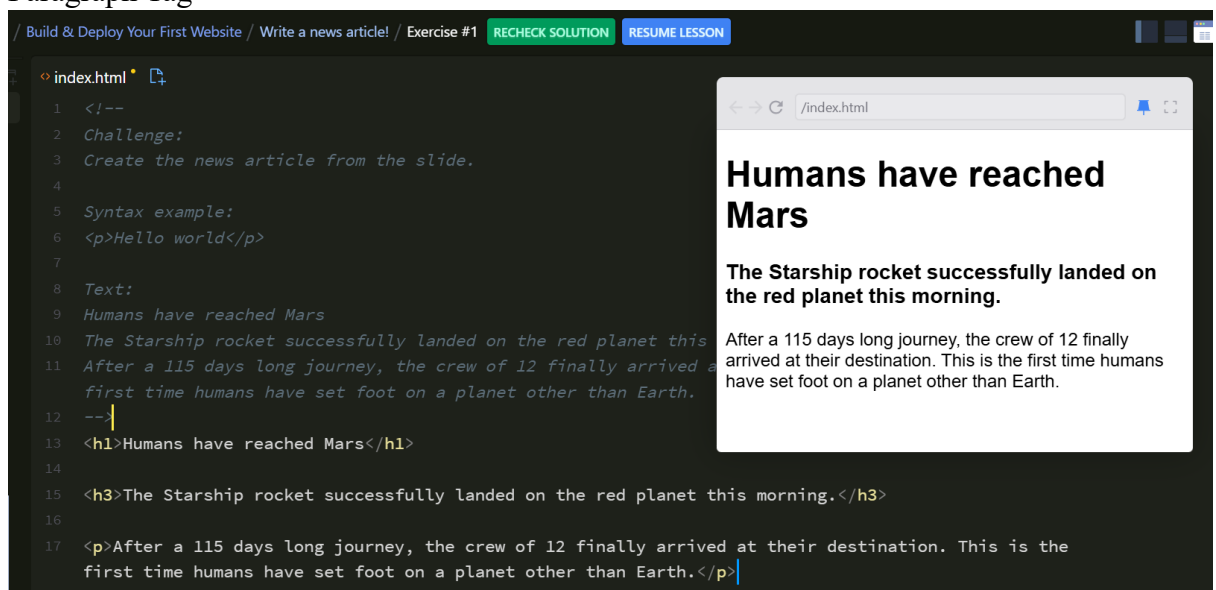

The screenshot shows a Scrimba exercise interface. The top navigation bar includes the breadcrumb "/ Build & Deploy Your First Website / HTML tags / Exercise #1" and two buttons: "RECHECK SOLUTION" (green) and "RESUME LESSON" (blue). The main area is split into two panels. The left panel is a code editor with a file named "index.html" containing the following code:

```
1 <h1>I code, therefore, I am</h1>
2 <h2>René Descartes</h2>
3
4 <!--
5 Challenge:
6 Try to make our web page look the design
7 in the provided slide.
8
9 Hint: what comes after 1?
10 -->
```

The right panel is a browser window showing the rendered output of the code. The address bar shows "/index.html". The page content consists of a large heading "I code, therefore, I am" and a subheading "René Descartes".

- Paragraph Tag

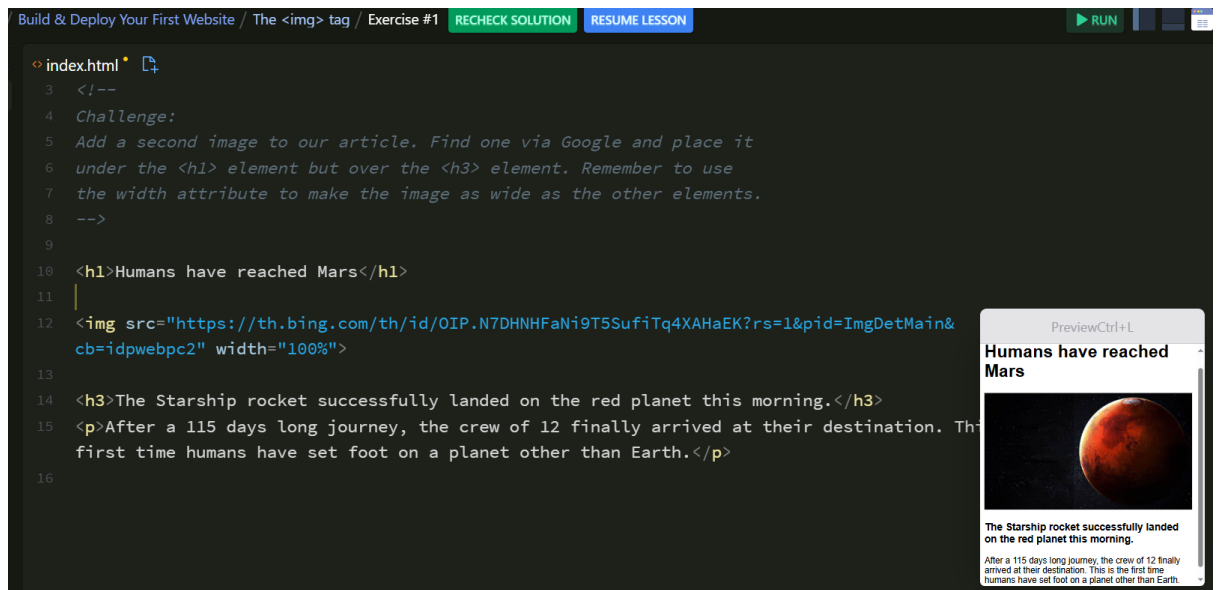

The screenshot shows a Scrimba exercise interface. The top navigation bar includes the breadcrumb "/ Build & Deploy Your First Website / Write a news article! / Exercise #1" and two buttons: "RECHECK SOLUTION" (green) and "RESUME LESSON" (blue). The main area is split into two panels. The left panel is a code editor with a file named "index.html" containing the following code:

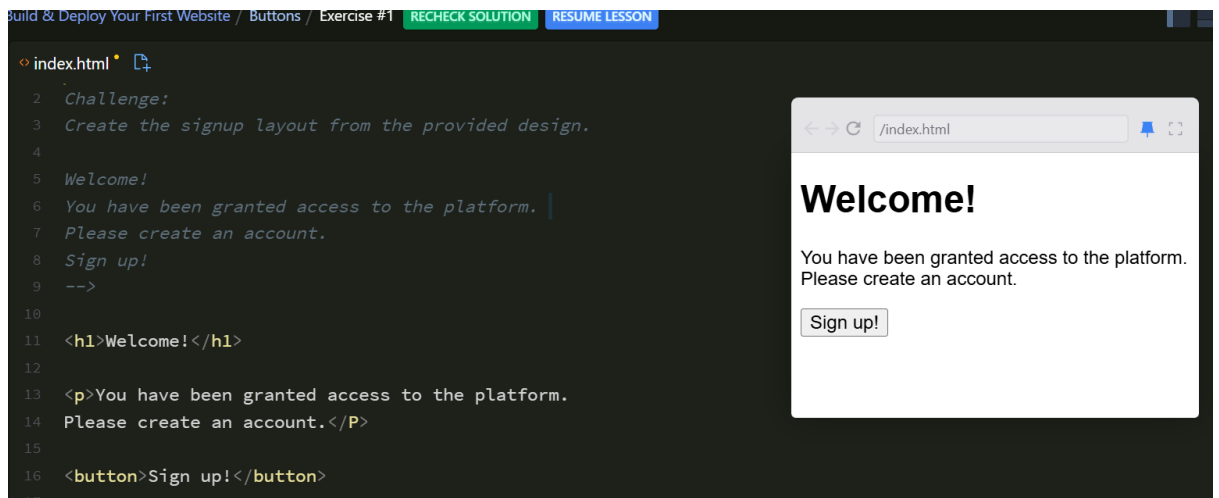

```
1 <!--
2 Challenge:
3 Create the news article from the slide.
4
5 Syntax example:
6 <p>Hello world</p>
7
8 Text:
9 Humans have reached Mars
10 The Starship rocket successfully landed on the red planet this
11 After a 115 days long journey, the crew of 12 finally arrived a
12 first time humans have set foot on a planet other than Earth.
13 --}
14 <h1>Humans have reached Mars</h1>
15 <h3>The Starship rocket successfully landed on the red planet this morning.</h3>
16
17 <p>After a 115 days long journey, the crew of 12 finally arrived at their destination. This is the
18 first time humans have set foot on a planet other than Earth.</p>
```

The right panel is a browser window showing the rendered output of the code. The address bar shows "/index.html". The page content includes a heading "Humans have reached Mars", a subheading "The Starship rocket successfully landed on the red planet this morning.", and a paragraph "After a 115 days long journey, the crew of 12 finally arrived at their destination. This is the first time humans have set foot on a planet other than Earth."
